

☆ LIVE Math Scholarship Program

A revolutionary way to learn math online

Thought + Full =  + 

- Thinking deeply and creatively
- Communicating confidently
- Finding joy in helping others

Your students can earn **full-tuition scholarships**, valued at \$2,000 per year, to LIVE Math classes. Our classes dive deeply into mathematical concepts, inspire creativity, and prepare them for any opportunity in life. **Our kind and brilliant high school mentors** coach these classes after taking **improv comedy** training to improve their communication, making math challenging and fun. With hard work, our scholars will achieve **extraordinary success**.

Partner with us to have your 6th-grade students be part of the LIVE Math Scholarship Program.

A cohort of 25 students are taught by **two high school Math Stars** supported by **two teaching assistants** and **a drama coach**. Classes are visually set up to look more like TikTok than Zoom.

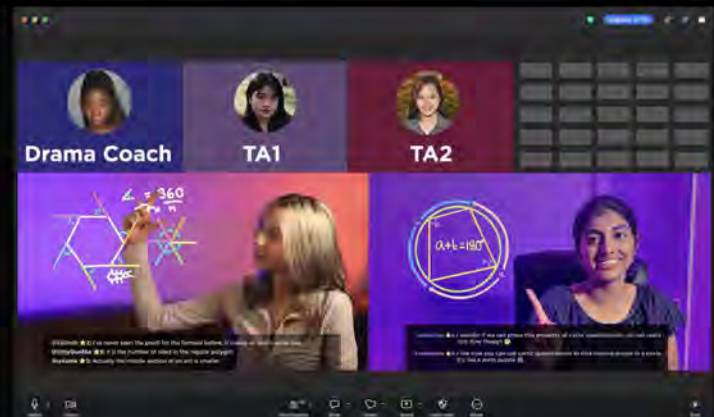

Founded by Po-Shen Loh, math professor at Carnegie Mellon University and former coach of the USA International Math Olympiad team, LIVE Math Classes goes beyond school curriculum to build inventive problem-solving skills.

"Every time I leave that class it's like I've had a **spiritual awakening** in the domain of algebra."

-Kamila, 6th grade student

"As a mom of a 12 year old, it has been the most wonderful experience to see him **excited to do math** classes during the summer. If he is asking to do school during summer time, these classes must be really good. Also, the **teachers are caring** and very involved."

-Sumailen, parent of LIVE Math Scholar
